PROGRAM: Our speaker will be James Buchanan, candidate for State Representative, District 4.

President's Message, by Matt Soldano

Well the primary election is over and the November election is ten weeks away! Now the real campaign begins in earnest. We must reelect President Trump! We must elect republicans to congress. President Trump's accomplishments have been tremendous despite the coronavirus, obstruction by democrats in congress, and rioting and demonstrations in so many cities. He has appointed a record number of conservative judges including two Supreme Court justices. The economy was booming and is well on the way to new heights despite the shutdown. We are now energy independent for the first time in years. The Wall is being built. Unemployment hit record lows and will again as the economy recovers. I could go on!

All of us must work extra hard as November approaches. Come by the Venice office to sign up for phone calling and door knocking in your neighborhood. We are open 9:00 until 5:00 Monday through Saturday at 250 South Tamiami Trail. Our phone number is (941) 480-1387. We have Trump and other candidate signs available. Join us for sign waving the second Friday of every month from 11:00 until 1:00 at #41 and Jacaranda.

Congratulations to longtime member and Events Chairman Terry Angley on her election as the Sarasota County State Committeewoman! She will represent the Sarasota County Republican Party at all Republican Party of Florida meetings. She promises to let us all know what is happening at the state level and will take our concerns to Tallahassee.

Thanks to a number of members who have donated to the RCSSC to help us win the election.

As usual, if you have any questions, you can call me at (401) 792-8132 or email me at matt1934@yahoo.com.

Win on November 3

Heart of Gold, By Jo Ann Stapleton and Richard Mazur, Source: Liz Crokin, *Townhall.com*, July 10, 2016.

President Donald J. Trump's kindness knows no bounds, and his generosity has and continues to touch the lives of people of every sex, race, and religion. Two decades ago, on the "Oprah Show" he said, "If it got so bad, I would never rule it out totally (running for president) because I really am tired of seeing what's happening with this country." He gave up his billionaire lifestyle to be humiliated, ridiculed, and slandered in order to save all American people. He stated several times, "I am not a politician. My only special interest is you, the American people." Here are a few examples of President Trump's generosity that the fake news media and Democrats will never tell you about:

- In 1986, Trump prevented the foreclosure of Annabell Hill's family farm in Waynesboro, Georgia after her husband committed suicide and the farm was under foreclosure. Trump personally phoned the auction, paid her debt of \$46K, and offered the widow money. He sent flowers with a note that read: "We've paid off your mortgage." Also in 1986, after NY City had spent \$13 million and six years trying to repair the Wollman Skating Rink, Donald Trump offered to repair it in six months for \$3 million—he did it in 4 months for \$750K (for democrats a "Trump lie").
- In 1988, a commercial airline refused to fly Andrew Ten, a critically ill Orthodox Jewish child with a rare illness, across the country to get medical care because he had to travel with an elaborate life support system. Trump didn't hesitate to send his own plane to take the child from Los Angeles to New York for treatment.
- In 1996, Trump filed a lawsuit against the city of Palm Beach, Florida accusing the town of discriminating against his Mar-a-Lago resort club because it allowed Jews and blacks. Other clubs followed his lead and began admitting Jews and blacks.
- In 2000 Maury Povich featured a girl with brittle bone disease. Trump contacted Maury, gave the girl and her family a generous check for medical expenses because the girl's story "touched his heart."
- In 2008, after Jennifer Hudson's family members were tragically murdered in Chicago, Trump put the Oscar-winning actress and her family up at his Trump International Hotel rent-free and said, "She is now safe."
- In 2013, New York bus driver Darnell Barton spotted a woman close to the edge of a bridge, stopped the bus, and saved her life by convincing her to not jump. Trump sent the driver a check to reward his good deed.
- In 2014, Trump gave Sgt. Andrew Tahmooressi \$25,000 after he spent seven months in a Mexican jail for accidentally crossing the US-Mexico border.
- In 2016, Melissa Consin Young attended a Trump rally and tearfully thanked him for changing her life. Years after standing on the stage with Trump as Miss Wisconsin USA in 2005, she struggled with an incurable illness. She said the opportunities that she got from Trump and his organizations ultimately provided her Mexican-American son with a full-ride to college. Also in 2016, Lynne Patton, a black female executive for the Trump Organization, revealed how she's struggled with substance abuse and addiction for years. Instead of kicking her to the curb, the Trump Organization and his entire family loyally stood by her through "immensely difficult times." She defended Mr. Trump against baseless accusations that he's a racist and bigot.

Since assuming office, President Trump has donated his entire salary back to the government—in one quarter to restore military cemeteries and in the last quarter to battle the coronavirus. When he leaves office, his net worth will have declined by 31% compared with past presidents Obama and Clinton: Clinton left office \$1 million in legal debt and gained \$230 million in 15 years; Obama left office worth \$3 million and gained \$100 million after leaving office. President Trump sacrificed his wealth for our country; Presidents Clinton and Obama sacrificed our country for their wealth.

Bill's Column on the BLM Organization: 'It's News to Us', By Bill O'Reilly, June 28, 2020, Submitted by Dan Church, Edited Excerpts.

Americans are divided, angry, sad, inspired in some cases, and watchful of the Black Lives Matter (BLM) movement. This week one of its leaders proclaimed on national TV that "if this country doesn't give us what we want, then we will burn the system down." Hawk Newsome continued saying he might be talking figuratively ... or literally. A threat?

You would think the national press would be all over this story, trying to get accurate information about the BLM operation to the American people, who the press is supposed to serve. Mr. Newsome, who heads the New York City chapter of BLM, is the new Huey Newton, whom the 1960's media largely adored. Mr. Newton cofounded the Black Panther Party.

Do you know who cofounded the current Black Lives Matter organization? Bet you don't. Because the press has totally ignored the real story regarding the BLM movement. Three women are behind "The BLM Global Network Foundation," which is the central organization that directs policy. Alicia Garza, 39, is the chief strategic advisor. Patrisse Cullors, 36, is also a top advisor.

Finally, Opal Tometi, 36, is the third force. She works with the BLM Foundation and is also the Executive Director of the "Black Alliance for Just Immigration." That group is associated with the "Freedom Road Socialist Organization," a Marxist-Leninist group that has received funding from the Tides Foundation run by George Soros.

The three women who essentially run the BLM Foundation keep a very low profile. No cable news interviews for them. In an interview with a professor from Morgan State University, Ms. Cullors said: "Myself and Alicia (Garza) in particular are trained organizers. We are trained Marxists. We are super-versed on ideological theories."

Some Anecdotes, Submitted by Dot Scheeres

School teachers are the number one occupation of the antifa terrorist organization according to the FBI.

If rioters come to your area, please remember, don't be a litterbug. Pick up your brass.

Racist. Noun. Someone who opposes race riots.

It took Nancy Pelosi 34 years to get offended by those Confederate statues.

50 years of affirmative action is finally paying big dividends for America, huh?

The communists living within the CHAZ "country" of Seattle have run out of food and supplies and are now begging for help. Welcome to actual communism morons!

Maybe it's the people, not the cops, that need better training.

Liberals are attacking conservatives and pushing for a civil war. If liberals wanted peace, there would be peace. If the conservatives wanted war, there wouldn't be any liberals.

Because the BLM Foundation does not have tax exempt status, at least not yet, the radical left "Thousand Currents" outfit "fiscally sponsors" BLM. That means it holds their donations, which now number in the millions. Because the non-profit "Currents" is overseeing the cash, donors are allowed to write off donations to BLM, according to the IRS. Karl Marx would love this; a capitalist government allowing tax deductions for money earmarked to destroy it. And so ignorant celebrities and clueless corporations benefit financially when giving money to the radical left BLM Global Organization Foundation. Right on!

When BLM receives the donated money where does the cash wind up? Well, according to FactCheck.org, 71 percent of it goes to salaries, benefits, and "consulting fees." The BLM organization is run by Marxists who have access to lots and lots of money.

Who knew? Certainly not anyone who follows the national press. Those "news" organizations couldn't care less. As long as they can virtue-signal and damage "Donald Trump's America," the press is happy in its laziness and apathy. Does the truth matter? Not to the media. Power to the people

The Potential Disaster of a Presidential Mail-in Ballot Election for 2020, By Randy Wedin

NOTE:

Mail-in voting is the mailout of ballots to the last known address of the voter (Ignoring the fact that many voters have moved several times since registering.) This type voting has little to no security restraints, can easily be counterfeited, and puts ballots in non-voter hands to easily be harvested to the benefit of one candidate over another.

Absentee-like voting means a voter only receives a ballot via mail after requesting it through official voting channels to his/her current address and is protected by laws that have stood the test of decades.

President Trump is SPOT-ON for questioning the security of a high percentage of mail-in ballots for the presidential election in November 2020. He has no problem with absentee-like balloting similar to that of states that treat the mail-in voting process like absentee ballots where each voter **must first request a ballot sent to their current address.**

His mail-in ballot concerns are focused on states ignoring election security. Mass mailing of ballots to the last known address of registered voters using their out-of-date

Should the Pyramids be torn down since they were built by slaves?

Robbery in progress. Better go online and see how civilians think we should handle it.

I haven't seen a single welfare office set on fire anywhere.

Our country will become a better place when everyone realizes there are only two kinds of people in it.... Good people and bad people. Ethnicity doesn't matter.

BLM. = Burn. Loot. Murder.

While we are getting rid of stuff, let's get rid of rap music that promotes violence and hate.

Are we the only country dumb enough to start another civil war because we are offended by the first one?

In 1933 Hitler appointed Hermann Goring Minister of the Interior. His first orders were to defund and eliminate police departments so that they would not interfere with his Brown Shirts whose mission it was to riot, burn, beat up, and kill citizens in an effort to sway the elections.

Are you being treated poorly by the police? Well, have you tried not breaking the law to see if that helps?

Does anyone see the irony in the fact that the Floyd funeral spectacle had a police escort?

Minneapolis has a democrat police chief, a democrat mayor, and a democrat governor; yet the republicans and Trump are at fault.

Strange how you can watch a televised funeral with hundreds in attendance after being told you can't go to your own family's funerals or your own family's kids' graduations. Think maybe you are being played?

voter database is unacceptable. Unpurged for years voter databases used to send live ballots out to voters will not find a majority of voters, especially those migrant, younger voters who have moved three or four times since they last registered. That is why forcing voters to request a ballot at their current address is the only efficient method to successfully send 100% qualified, registered voters their active ballots

For a political party so concerned with Russian interference, the Democratic party is oblivious to potential security issues, especially when devoid of extra security using an insecure ballot process from the outset. It is a chaotic election waiting to happen. Winners/losers will contest the results for months, with votes lost on both sides due to valid ballot confirmation issues. Still other illegal votes will slip through the porous security system resulting in some voters voting illegally multiple times.

President Trump is justified in raising awareness that a mass mailout system is not the system needed to insure votes for all American citizens. His proof is in a smattering of primary elections. In New Jersey, around 10% of one 100% mail-in ballot election were thrown out. Primaries in New York with 25% of votes invalid are still recounting weeks after the election. Imagine what it will be like in a much heavier President/Vice-President election.

The New York Post opined on July 30, 2020: "There's debate about the constitutionality of a presidential succession law. Some believe the House speaker — potentially Nancy Pelosi (D-Calif.) — would shockingly become temporary president if there was no winner selected by Jan. 20. Others believe it would be Secretary of State Mike Pompeo. That alone should prompt a serious look at how each state is handling mail-in voting on the grassroots level, and it needs to be done immediately."

Is this Nancy's takeover of America agenda? America deserves and wants a fair election. If voting in person isn't attainable, then an absentee-like ballot system is a logical backup. There's no time to dither.

America doesn't need a travesty election for the ages that could potentially change the proven Constitutional Republic into a Marxist state destined for failure. It is time for the silent majority to roar.

Bishop E. W. Jackson: Defending American History, By Bishop E. W. Jackson, *Iowa Standard*, June 26, 2020, Excerpts.

One of the first things Stalin did when he took power was to alter Russian history. The Bolshevik Revolution required remaking the minds of the Russian people. To do that, history had to be censored, distorted and rewritten. We are witnessing something

similar in our very own country and it is deeply disturbing. Senator Tim Kaine would make Stalin proud. On the floor of the Senate, he said the following last week:

"...The United States didn't inherit slavery from anybody. We created it. It got created by the Virginia General Assembly and the legislatures of other states. It got created by the court systems in colonial America that enforced fugitive slave laws."

Is he that ignorant or does he hate our country so much that he feels the need to distort our history and put America in the worst possible light? Or does he think he can benefit politically by lying to incite more racial strife? Whatever the reason, a man who is spewing false history on the floor of the Senate is not worthy to serve in that body.

The first Africans who arrived in Virginia in 1619 were indentured servants. The Portuguese had developed the Atlantic slave trade 150 years earlier. European colonies did not have to "invent" slavery. It was already part of the culture of that day. America inherited it.

Furthermore, there was no "United States" when the first Africans arrived on this continent. There was no America as we know it. There were British colonists who came from Europe where slavery was a fact of life. America did not invent slavery or the slave trade. Establishing codes for management of slavery, while abhorrent, is not the same as "creating" the institution itself. This is not a justification of slavery, but acknowledgement of the realities of the 17th century world and the context of slavery's introduction to this continent.

Why is it that Americans like Tim Kaine are so determined to teach people to think the worst of our own country? Why do they stay here if they have nothing but contempt for America? Why do they want to serve in government if they have nothing but disdain for the United States? Kaine fails to mention that slavery was indigenous to Africa, and that African Muslims introduced Europeans to the immoral practice. He does not acknowledge that slavery couldn't have happened without the cooperation of African kingdoms and tribes. He says slaves were taken against their will, but does not acknowledge that fellow Africans were their captors.

Slavery is not a racial problem, but a human problem that still exists in various parts of the world. By contrast, America is a land of freedom. **Only one nation founded itself on this lofty idea:** *"We hold these truths to be self-evident, that all men are created equal, that they are endowed by their Creator with certain unalienable Rights, that among these are Life, Liberty and the pursuit of Happiness."*

These are some of the greatest words ever written. They have resonated through the centuries. They have been quoted by people all over the world. It seems that the only place those words are devalued is among the socialists and communists who want to tear our country down. We cannot allow Marxists to do to America what Stalin did in the Soviet Union – change history to suit his agenda and keep himself in power.

I'll stick with Washington and Jefferson over a hack politician like Tim Kaine any time. We can then build on the legacy of our Founding Fathers. They weren't perfect people, but neither are we. What we have in common with them is a love of liberty and love of country. It's time for patriots to unite against the mob who hates everything America represents. We cannot allow them to delegitimize, destabilize and deconstruct our country. We are in this fight until we win, and we will win. We cannot be defeated if we will not quit because we are on God's side. So is America, if we have anything to say about it. For God & Country,

President Trump Recognizes Judicial Watch, By Tom Fitton, August 21, 2020, Escepts.

In his speech to the 2020 Council for National Policy this week, President Trump spoke about the dangers of the proposed vote-by-mail policies that would pave the way for ballot harvesting. And as he did, he paused to recognize Judicial Watch.

"Tom, where's Tom, Tom where is he, stand up Tom, will you Tom Fitton. That's Judicial Watch ... they do a fantastic job. I wish he had more help. I mean honestly, I wish he had more help. But it's not easy beating a system that's been in place for many, many years, right? Many, many years it's been in place and it's sad but, 51 million votes are being sent and nobody knows who's getting them and what happens if you send them to an all Democrat area but not to an all Republican area. How do you win an election? This is really a very serious problem.... This is about all of us. This is about the country."

This pleased me, of course, because we have been without peer in our fight for clean voter rolls and clean elections. In his remarks the President made it clear that our efforts are critical, and he reinforced my desire to succeed.

REPUBLICAN CONVENTION 2020

The six Members of the Florida Delegation - representing 4,927,507 FL Republicans - on the floor of the Republican Convention & ready to award Florida's 122 Delegates to Floridian Donald J. Trump.

**North Carolina made the Motion to Nominate.
Florida GOP Chairman Joe Gruters seconded the Nomination. August 24, 2020.**

A Note from RPOF Chairman Joe Gruters, 8/24/2020

The Republican National Convention began today and I had the tremendous honor of seconding the nomination of Donald J. Trump for reelection. It was an exciting moment, being able to put his nomination on the floor while spelling out to the American people the enormous successes of President Trump and the unprecedented need for a second term. Drawing contrasts to the Democratic Party makes the choice a stark one.

This November, voters will be given a clear choice: Continue our Great American Comeback or travel down the Democrats' dark road of radical leftist policies that will financially bankrupt us and destroy our cities.
